

ECE Weekly

Ed. 1.6.16

The Ohio State University Department of Electrical and Computer Engineering

Li named SPIE Fellow

In the highest professional honor within the worldwide optics and photonics industry, ECE associate professor **Guoqiang Li** was just named a 2016 SPIE Fellow. It has already earned him a speaking role in front of thousands at the next Vision China 2016 conference. Find my full story on his research and achievements at the link:

ECE alumnus focus of WOSU radio series

Our own ECE alumnus **Noorgul Dada** was featured in WOSU's ongoing "New American Voices" radio series focused on the stories of Ohio immigrants. It was a very popular story on our Facebook page when I shared it last week. Full story:

<http://go.osu.edu/dada>

A lot of folks came together to help send off ElectroScience Lab anechoic chamber manager and technician **Jim Moncrief**. He retired after over 20 years of service to ECE. More pictures from the event:
